

Conformal Coating Thinner

2105

Techspray offers a variety of coating formulas to match field and engineering requirements. Specifications generally depend on the type of protection needed: e.g. thermal, moisture, and static resistance.

Coatings contain Opti/Scan to allow quality control inspection of coverage and evenness of the coating on a PCB. A coated board can be passed under a standard, low-cost UV (short-wave black) light, and the coated areas glow. The brighter the glow, the thicker the coating.

Thinner for all Fine-L-Kote conformal coatings

Techspray coatings can be thinned to meet production requirements using Conformal Coating Thinner (2105).

- Thins most types of conformal coating
- Adjust viscosity for spray systems
- Non-ozone depleting

Product Packaging

2105-G
Fine-L-Kote UR Thinner
1 gal
