

# tesa<sup>®</sup> 68878

## Product Information

150µm double-sided transparent film tape with 75% bio-based acrylic adhesive

## Product Description

tesa<sup>®</sup> 68878 is a transparent, double-sided mounting tape with a 100% post-consumer recycled (PCR) PET backing and a 75% bio-based carbon content acrylic adhesive\*. It is equipped with a glassine liner which is made with paper from well-managed certified forests and other controlled sources. The double-sided tape is specifically designed to have excellent bonding strength on various substrates. Additionally, it offers very good push-out, humidity, and ageing resistance.

The combination of its excellent performance and contribution towards process sustainability makes tesa<sup>®</sup> 68878 the ideal choice for a reliable bonding solution.

## Sustainable Aspects

## Product Features

- 75% bio-based carbon content acrylic adhesive\*.
- 100% post-consumer recycled PET content in backing.
- Glassine liner is made with paper from well-managed, certified forests and other controlled sources.
- Very good bonding strength.
- Very good push-out resistance.
- Excellent resistance to demanding environmental conditions.

## Application Fields

tesa<sup>®</sup> 68878 is especially suitable for customers looking for products with sustainable features without compromising on bonding performance. Example mounting applications include but are not limited to:

- Component mounting
- FPC fixation
- Touch panel mounting

## Technical Information (average values)

## Product Information

### Product Construction

• Backing	PET	• Total thickness	150 µm
• Type of adhesive	acrylic	• Color	transparent
• Type of liner	glassine		

### Properties/Performance Values

• Elongation at break	60 %	• Ageing resistance (UV)	very good
• Tensile strength	18 N/cm	• Humidity resistance	very good

### Adhesion to Values

• Glass (initial)	14 N/cm	• PC (after 14 days)	16 N/cm
• Glass (after 14 days)	14.5 N/cm	• Steel (initial)	13.5 N/cm
• PC (initial)	14.5 N/cm	• Steel (after 14 days)	15.5 N/cm

### Additional Information

\*Bio-based carbon content is based on ASTM D6866 Carbon-14 test

### Disclaimer
